

The European Network for Patient Safety & Quality JA PaSQ

Update

PSQCEG

Brussels, 28 Sept. 2015

PaSQ networking approach

PaSQ = 61 partners: all MS and the main stakeholders

- Collective review and selection of good practices (SCPs & GOPs)
- Implementation of safe and transferable SCPs and GOPs
- Support based on exchange of experience and mutual learning
- Commitment of field workers and patients at all stages of the work through NCPs
- Development of IT tools to facilitate commitment and communication
- EU Convergence in the long term

PaSQ

European Union Network
for Patient Safety and
Quality of Care

Funded by
the Health Programme
of the European Union

PaSQ – Expected Outcomes for Sustainability

- To build a permanent collaborative network on PS that will be enlarged to address quality issues and reinforced by assuring long-term MS engagement in the PaSQ network, together with the Commission
- Implementation of collaborative business model and financial sustainability of the permanent network

Needs expressed by stakeholders for further PS and QC cooperation

- Higher involvement of clinicians (from hospital and other healthcare facilities)
- Increased involvement of PS&QC experts, risk manager from hospitals or frontline health care workers.
- agenda pushed closer to healthcare provider and patient organization.

PaSQ Next steps until March 31st

WP1 coordination

- 2nd contract amendment signed by CHAFEA August 14: “no cost extension till March 31st 2016.
- 2nd interim report send to CHAFEA in July 2015
- 3rd instalment of the grant to be received in 2015.
- Final report March 2016

WP2 dissemination

- Update of PaSQ website
- Publications in peer review journals involving also WP4&6
- Presentation to ISQua annual meeting in DOHA
- Communication about PaSQ at national level: PaSQ session in the framework of the Croatian Society for Quality Improvement in Healthcare Congress, September 11, 2015

PROJECT

The **European Union Network for Patient Safety and Quality of Care, PaSQ Joint Action** is co-funded and supported by the European Commission within the Public Health Programme.

Its focus is to improve **Patient Safety and Quality of Care** through **sharing** of information, experience, and the implementation of **good practices**. These platforms are organised around **PaSQ National Contact Points (NCPs)**, who are also the contact persons for PaSQ matters in their respective countries.

WORKING PATTERN

It is running for 48 months (April 1st 2012 – March 31st 2016) and is performed through **seven (7) Work Packages**.

OBJECTIVE

The main objective of PaSQ is to **support** the

PaSQ QUESTIONNAIRE

Help us further enrich the PaSQ database: it is possible to submit good practices until the end of PaSQ Joint Action. You can access the Questionnaire through *Sign Up* (if you are not a registered user) or *Log In* (if you are already a registered user).

[ENTER QUESTIONNAIRE](#)

GOOD PRACTICES

Most viewed:

- 224 / Training Plan Patient Safety Culture
- 140-729 / Reporting and learning system for patient safety: SINASP (Sistema de Notificación y Aprendizaje para la Seguridad del Paciente)
- 335 / Incident reporting system and management of incidents.
- 234 / Patient identification
- 400 / LUCAS: a tool for fall-risk screening

PaSQ DELIVERABLES

PaSQ PROPOSAL FOR A PERMANENT EU NETWORK

IMPLEMENTATION OF SAFE CLINICAL PRACTICES

Healthcare Organizations are still invited to join the implementation of Safe Clinical Practices. The tool boxes and the information regarding this implementation activity are currently being updated.

Partners Area Only

Update of WP5 information on PaSQ website

Objective:

to provide an ***implementation and evaluation package*** that can be used by HCOs on their own or with the support of their PaSQ National Contact Points.

Update of WP5 information on PaSQ website

first step:

.Safe Clinical Practices (SCPs) for Implementation

.WP5 Fact Sheet

.Requirements and Timeframe for HCOs implementing SCPs and the Recruitment Package

.Monitoring and Assessment of WP 5

Implementation Process

feedback received by September 8th

Update of WP5 information on PaSQ website

Next step:

- Questionnaires
- How-to-guides
- Monitoring tools.

WP7

Next step:

- Follow up of PaSQ proposal
- Feasibility study

Public Health work program 2015

- Permanent network
